MEMORANDUM TO:

FROM :

DATE

: 29 September 1948

50X1

10467

The complete file of our carded material is herewith forwarded. It consists of the following separate bundles.

A) Our carbon-copy working file, arranged in proper order by subjects and chronologies.

B) The originalsof material translated and carded since our last submission to ORE; when properly filed, these will complete the original file. Since the original file has the advantages of the red typewriter ribbon and of more careful editing, it is recommended that it be primarily used.

C) Bibliography cards of Soviet books, pamphlets and periodicals from which the research material was extracted and translated.

D) Bibliography cards which we used as a working file for making up lists.

The pink-card explanations at the front of the box of carded material should provide answers to any questions you may have for its use; the material is also explained in the introduction of the "Final Survey." Further questions may be submitted to whose efforts comprise a most important share of the work on this research.
